

iTrack Mentoring

Jeanne Bathgate

iTrack is a student mentoring program operated by the Smith Family. Mentors are matched with an 'at risk' student in Years 9, 10 or 11 and spend one hour a week online chatting for 18 weeks. The aim is to help students shape their career goals and encourage them to remain in education. The program is well supported and students are nominated by their schools. There is a strict WWC process as well as referee checks. All chats are closely monitored.
